

Monitor. Integrate. Alert. Peace of Mind.

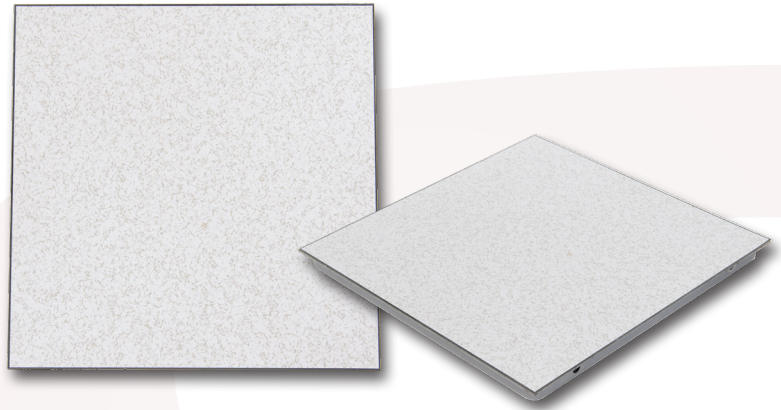

Applications

Cement filled panels are designed to fit into most raised floor systems.

Contact RLE to ensure a personalized fit for your facility.

Key Features

- Cement filled steel composition
- A variety of load weight ratings
- Option to powder coat bare finish panels

Complete Airflow Solutions For Every Facility

Designed to eliminate structural weak points found in most raised floor systems, available in many strengths to meet your building needs.

What Sets RLE's Cement Filled Panel Apart?

- **Durable** - eliminating structural weak points
- **Load Ratings Available Up To 2,500 lbs**
- **Compatible with our stringers, pedestal assemblies, and adhesives**

Cement Filled Panel • Compatible with our stringers, pedestal assemblies, and adhesives
